

# Planetary Geophysics / SEG Seminar

*speakers autumn semester 2021*

---

<b>Date</b>	<b>Speaker</b>
2021/09/20	Stephen Pugh – Seismic observations of the X-discontinuity and the source of chemical heterogeneity in the upper mantle (Department of Earth Science, University of Cambridge)
2021/10/11	Dr. Martin Knapmeyer – Temporal variations in Martian (HF-) seismicity (Deutsches Zentrum für Luft- und Raumfahrt, Berlin)
2021/10/18	Dr. Federico D. Munch – <i>TBA</i> (Seismology on Earth) (Seismology Lab, University of California, Berkeley)
2021/10/25	Dr. Thomas Bodin – <i>TBA</i> (Inverse theory, global seismology) (Laboratoire de Géologie de Lyon, ENS Lyon)
2021/11/01	Dr. Doyeon Kim – <i>TBA</i> (Seismology) (Institute of Geophysics, ETHZ)
2021/11/08	Dr. Dan Bower – <i>TBA</i> (Planetary interior dynamics) (Center for Space and Habitability, University of Bern)
2021/11/15, 16:00	Dr. Adrien Broquet – <i>TBA</i> (Planetary Geophysics) (LPL University of Arizona)
2021/11/22	Dr. Ana-Catalina Plesa – <i>TBA</i> (Martian Geophysics) (Deutsches Zentrum für Luft- und Raumfahrt, Berlin)
2021/11/29	Nienke Brinkman – <i>TBA</i> (Martian seismology) (Institute of Geophysics, ETHZ)
2012/12/06	Dr. George Helffrich – <i>TBA</i> (Geophysics) (Earth-Life Science Institute, Tokyo)

---

Version: 2021/10/06

Seminars usually take place on Mondays, 12:00, via Zoom. If you're interested in joining, please contact [felix.bissig@erdw.ethz.ch](mailto:felix.bissig@erdw.ethz.ch) in order to be added to the mailing-list.
