

Planetary Geophysics / SEG Seminar

speakers autumn semester 2020

Date	Speaker
2020/09/21	Harry Ballantyne – Explaining the Crustal Dichotomy via Giant Impact (Space Research & Planetary Sciences, University of Bern)
2020/09/28	Dr. Paolo Sossi – Stochastic accretion of the Earth (High Pressure Geology, Institute of Geochemistry & Petrology, ETHZ)
2020/10/05	Dr. Anna Mittelholz – Martian Magnetic Field (Seismology and Geodynamics, Institute of Geophysics, ETHZ)
2020/10/12	Anna Guelcher – Corona structures driven by plume-lithosphere interactions and evidence for a hotspot Venus (Geophysical Fluid Dynamics, Institute of Geophysics, ETHZ)
2020/10/19	Dr. Andrea Zunino – Inverse theory / computational seismology (Seismology & Wave Physics, Institute of Geophysics, ETHZ)
2020/10/26	Dr. Martin van Driel – Computational seismology (Seismology & Wave Physics, Institute of Geophysics, ETHZ)
2020/11/02	Lara Meyer – Paper discussion / talk (Planet MARS, ETHZ)
2020/11/09	Géraldine Zenhäusern – Paper discussion / talk (Planet MARS, ETHZ)
2020/11/16	Dr. David Sollberger – Planetary Geophysics (Exploration and Environmental Geophysics, Institute of Geophysics, ETHZ)
2020/11/23	Dr. Caroline Dorn – Exoplanetary Research (Institute of Computational Sciences, University of Zuerich)
2020/11/30	Laurine Rey – Paper discussion / talk (Planet MARS, ETHZ)
2020/12/07	(AGU)
2020/12/14	Franziska Riegger and Stefan Strub – LISA mission (SEG and EEG groups, Institute of Geophysics, ETHZ)

Version: 2020/09/25

Seminars take place on Mondays, 12:00, in NO F11 and via Zoom. If you plan to attend the meeting offline, please consider the regulations by ETH (<https://ethz.ch/content/associates/services/en/news-und-veranstaltungen/intern-aktuell/archiv/2020/08/wir-setzen-auf-masken-und-distanz.html>) and fill in the contact-tracing form provided by ETH (www.erdw.ethz.ch/ct).
